

K-LOVE radio station 104.3 FM is a station I listen to every day. It's the only radio station I listen to. I understand the FCC is looking into changing the broadcast system entirely to LPFM. This would be devastating to the Cincinnati area. K-LOVE is a non-profit, listener supported station, and the listeners cannot afford to pay for all the new equipment that would be necessary for our radio station to convert its broadcasting. To those who count on this radio station to encourage and uplift us every day, this would be extremely upsetting. K-LOVE is an encouraging and family-friendly radio station that is great for the entire family to listen to. I can listen to the radio with my CHILDREN!!! I don't have to worry about what is going to blast across my radio that I might not want my children to listen to. Cincinnati needs these kind of radio stations to stay on the air for the sake of our children. Please don't change it all to LPFM for the sake of OUR FAMILIES!!! We're counting on you to make the right decision for our community as well as our country. We need to start standing up for MORE FAMILY ORIENTED PROGRAMMING and not make it more difficult!!! Thank you for your consideration in this matter. Sincerely, Tina Loudermilk
